

SITE MAINTENANCE

Maintaining your site is a must for all organizations no matter the size. Slips, trips and falls account for around 38% (10,835) of major workplace injuries each year. One slip or trip accident occurs every three minutes and every hour someone breaks a bone at work. This equates to a cost to employers of over £500 million in lost production and other costs.

Temperatures in the indoor workplace are covered by the Workplace (Health, Safety and Welfare) Regulations 1992, which place a legal obligation on employers to provide a ‘reasonable’ temperature in the workplace.

The Approved Code of Practice suggests the minimum temperature in a workplace should normally be at least 16 degrees Celsius. If the work involves rigorous physical effort, the temperature should be at least 13 degrees Celsius. These temperatures are not absolute legal requirements; the employer has a duty to determine what reasonable comfort will be in the particular circumstances.

Hydrosack

Create a highly effective flood barrier in domestic and commercial properties.

- Hydrosack can absorb up to 20 litres of flood water.
- Its unique design lets water in but not out, even when punctured.
- Before use the Hydrosack weighs a mere kilo and so is fast and easy to place into key positions - carry handles help with moving into position.

Code	Description	Price
SIT0001	Hydrosack (Pk of 2)	£19.99

HydroSnake

Create a highly effective barrier against flood water.

- HydroSnake is lightweight, flat and easy to store.
- When required, simply immerse in water and HydroSnake quickly expands, ready for use.
- Use to create a barricade to prevent flood water entering your property.
- Can also be used as an environmentally friendly sandbag.

Code	Description	Price
SIT0002	HydroSnake (Pk of 2)	£21.99

Pedestal & Desk Fans

Ideal for the office and home.

- Pedestal Fan is height adjustable to 4ft from the floor.
- 3 speed settings.
- Adjustable heads for convenient positioning.

Code	Description	Price
FAN3	Desk Fan	£28.50
FAN5	Pedestal Fan	£38.50

Upright Electric Fan Heater

Small but powerful heater.

- Has 2 adjustable heat settings – 1 or 2kW heat output, thermostatic temperature control and overheat safety cut-out.
- Measures 270 (H) x 225 (W) x 205mm (D).

Code	Price
SIT1412	£19.75

Wall-Mount

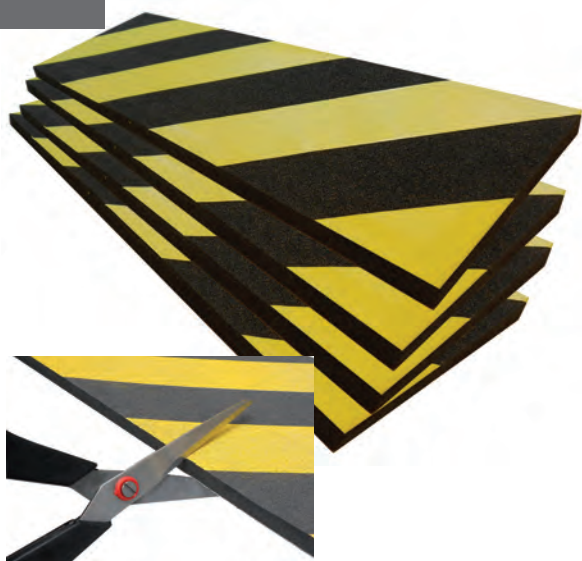

Thermometer

Comply with workplace Health & Safety.

- Regulation 7 of the 1992 Workplace Health, Safety & Welfare Regulations requires that the temperature in workrooms is normally at least 16°C.
- Features a dual scale with the 16°C mark clearly highlighted.

Code	Price
FAD2164	£5.99

Comfortable Foam Impact Protectors

A unique 'one size fits all' solution to preventing impact injuries as well as protecting equipment.

- Supplied in 120 (W) x 500 (L) x 10mm (D) sheets that can be moulded around surfaces and equipment thanks to a strong yet flexible aluminium core.
- After bending the foam as desired the protector will retain this shape and can then be secured to the hazard.
- Easy to cut with scissors to enable application to irregular shaped or awkward hazards.
- Fully adhesive backing to ensure a quick and easy application as well as a long life.
- Screen printed in black and yellow to warn of the hazard.
- **Supplied in packs of 4.**

Code	Price
JUP239	£59.75

Reflective Rubber Corner Protectors

Low cost, long-lasting solution to the effects of impact and abrasion caused by heavy vehicles.

- Extremely versatile protection – use in car parks and warehouses or in any environment where vehicles and machinery can cause damage to corners.
- Heavy-duty, durable rubber absorbs and deflects impact.
- Finished in reflective yellow with black striping for increased visibility and hazard warning.
- Features 6 mounting holes to secure unit to wall.
- TRAF709 - 780mm long.
- TRAF710 - 800mm long.

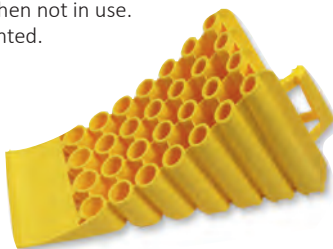

Code	Size (W x D)	Price
TRAF709	100 x 100 mm	£44.25
TRAF710	120 x 120 mm	£58.25

Plastic Wheel Chocks & Holders

Ideal for all truck and loading bay requirements.

- Fully tested chocks to DIN 76051.
- Comply with ADR regulations (non-sparking and tested to -40°C).
- Super tough holders are available with retaining clips which secures the chock in place when not in use.
- Holders can be wall or vehicle mounted.
- Suitable for all vehicles.

Code	Description	Price
JUP114	Large Plastic Wheel Chock	£35.95
JUP115	Large Wheel Chock Holder	£27.50

Chock Holders can be mounted onto vehicles.

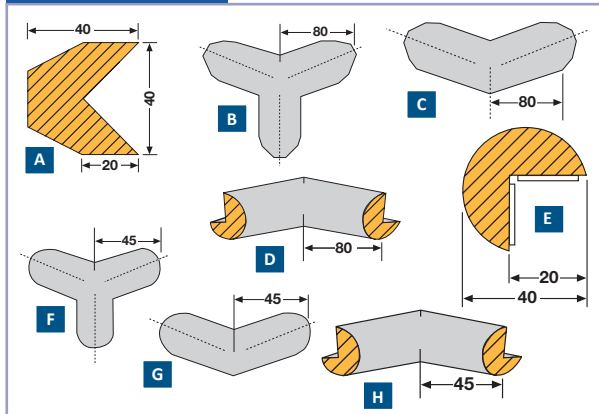

Polyurethane Foam Impact Protectors

Use to warn of potential danger or help prevent impact injury.

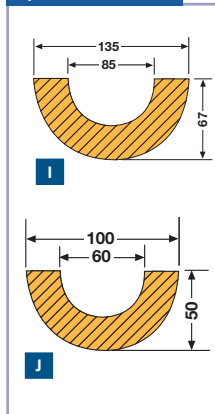

- A range of profiles available to warn of protruding corners, edges, vulnerable pipes, and protect walls, kerbs, trolley parks, vehicles, machinery and racking.
- Recyclable, flexible, age- and UV- resistant foam – simply cut to length required.
- High visibility yellow and black colours warns of potential hazard.
- Corners and T-sections (Style Nos. TRAF184-89) are black only.
- Ideal for industrial environments.
- Suitable for temperatures between -40°C and +90°C.
- 1 metre lengths available in 11 different profiles for ultimate customisation.
- 5 metre lengths available in 3 different profiles to create longer runs.
- For sizes see diagram.

Heavy-Duty Repair Epoxy Mortar

High strength, impermeable and chemical-resistant.

- Ideal for repairs, bedding and fixing.
- Ready for on-site mixing and use.
- Has a yield of 4.4 litres and dries to a buff colour, weighs 10kg.
- Supplied with a handy 2-pack primer system, cleaning solvent and disposable gloves.

Code	Price
KF-ERMR	£122.60

Instant Road Repair

For instant and permanent repairs

- Suitable for use on type 3 or 4 roads with potholes up to 100mm deep using the layer on layer method.
- Approved as 'fit for purpose' use by the Highways Authority Product Approval Scheme (HAPAS)
- Repair tub is fully re-sealable to help reduce waste and provide a quick and easy fix when required.
- We recommend the use of our Chemprotect gloves when using this product. Please see page 157 for codes.
- Both the tub and bag each weigh 25kgs.

Code	Description	Price
301QSA100	25kg Bag	£34.99
301QTA100	25kg Tub	£37.99

Tough Patch Rapid

Perfect for use on car parks, pavements and high speed roads.

- Product is ready to use straight from the bag/tub.
- Quick, simple and easy to apply in one application. No need to go back for maintenance.
- Tub will keep the product in good condition for up to 6 months.
- Can be used to fix both concrete and asphalt.
- Suitable for use in wet and cold conditions.
- Both the bag and the tub weigh 25kgs each.

Code	Description	Price
301QQA100	25kg Bag	£45.99
301QRA100	25kg Tub	£47.99

Kerb Patch and Repair

Ideal for use on smaller areas that require less than a ready mix quantity.

- Supplied in a 10kg tub, with a 2 part component system containing cements, aggregates and a polymer modified liquid admixture.
- We recommend that this product is not used in temperatures below 5°C.
- Once the area has been treated it can be opened to the public 2 hours later.

Code	Description	Price
301QNA100	10kg Tub	£49.99

Economy Dummy CCTV Camera

Indistinguishable from an active camera

- Economically priced but premium quality
- Constructed from sturdy anodised aluminium with an anti-corrosion finish
- Sliding hood and Grade 1 impact-proof window (to BS 6206) make it ideal for vandal prone areas
- Fully waterproof and maintenance-free with flashing LED (batteries included)
- Fitted on powder coated pan and tilt wall bracket for accurate pointing
- Weighs 850g

Code	Price
CD75	£34.99

Prickler Strips

An inexpensive and simple way to help deter intruders

- Place on top of walls, fences and ledges
- Moulded from durable, waterproof plastic, the strips are lightweight and easy to fix with adhesive – sold separately
- Each strip measures 49 (W) x 465mm (L) and is available in brown
- Supplied in pack of 8
- 310ml tube of adhesive provides adhesion for approximately 16 strips – see price box

Code	Description	Price
SEC197	Prickler Strip (Brown)	£36.99
SIT1124	Adhesive – 310ml	£17.99

Anti-Climb Paint

Simply brush onto drainpipes or fencing to prevent unlawful access to your property

- This non-drying, oil-based paint stays wet to provide a constant slippery surface
- Choose from grey or black paint
- 5 litre tin will cover 2.04m²
- Ensure paint is applied 2m above ground level, and warn the public that anti-climb paint has been applied – sign sold separately, see page 38
- **NB: Legal action can be taken against owners of premises by anybody affected by anti-climb paint applied lower than 2m from the ground**

Code	Size	Colour(s)	Price
SEC73	2.5 Litres	Grey	£64.99
SEC74	2.5 Litres	Black	£78.99
SEC76	5 Litres	Black	£120.99

LOCKOUT/TAGOUT – WHAT IS IT?

Lockout/Tagout is a planned safety procedure which involves turning off the energy supply of equipment and machinery whilst maintenance and repairs are being carried out. This procedure protects workers from danger and the machinery being set in motion. Once all of the work and repairs to the machinery have been checked and completed then all of the lockout equipment and locks can be removed ready for the machinery to commence safe operation again.

There are many potential risks and hazards within the workplace but none greater than the sudden release of energy which a machine can generate. Every year hundreds of workers are injured or even killed whilst conducting routine maintenance or repairs on workplace machinery and equipment due to this sudden release of energy.

As a result of this, every company has a legal requirement ensuring that all machines which are being repaired or maintained have their energy sources turned off and locked out. This 'locking off' practice will prevent the unauthorised operation of the machine until all of the work has been completed.

LOCKOUT/TAGOUT

MCB “Toggle Lock”

Possibly the simplest yet most versatile MCB lockout in our range. “Toggle lock” simply fits over the MCB toggle, using a small flat screwdriver, tighten the internal grub screw to secure the RCE25 onto the toggle. Once tight & secure, insert your padlock which blocks access to the grub screw so the device cannot be removed and the toggle operated until the lock is removed.

Code	Price
RCE25	£5.50

Safety Lockout Hasps

Protect against accidents.

- Make sure all machinery stays locked out until repairs or inspection is finished.
- Each worker puts a lock on the hasp which cannot be removed until all locks have been released.
- Constructed from case-hardened plated steel which resists tampering and prevents rusting.
- Insulated with a red vinyl coating.
- Holds up to 6 padlocks.

**Large Order!

Code	Description	Price
SL60	25mm Lockout Hasp	£5.95
SL60-12	25mm Hasp Pack of 12	£49.95
SL65	38mm Lockout Hasp	£6.95
SL65-12	38mm Hasp Pack of 12	£59.95

Flexible Lockout Hasp

- Manufactured from heavy duty flexible nylon with 80mm clearance.
- Can easily be manipulated into place.
- Ideal for difficult applications.
- Accepts padlocks with a shackle diameter up to 90mm.
- Holds up to 6 padlocks.

Code	Price
NCL1	£3.50

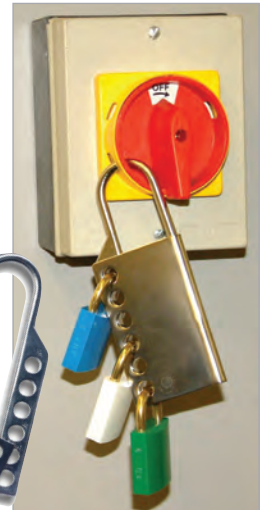

Stainless Steel

Lockout Hasp

Ideal for offshore, chemical and food industries.

- Fully stainless steel lockout hasp with nickel plated finish.
- The hasp has the capacity to hold up to 6 padlocks.
- 40mm clearance, 25mm wide.
- Padlock holes 8mm dia.

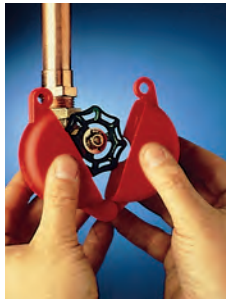

Code	Price
RCE10	£19.50

Gate Valve Lockouts

Safeguard against accidents involving gate valves.

- Made from durable polypropylene with stainless steel hinges for added strength and security, preventing tampering.
- Cannot be 'popped' open.
- Raised centre enables lockouts to take a rising gate valve.
- To lock device out, use a padlock.
- Available in 4 colours: Red, Green, Yellow and Blue -
- Please specify when ordering.

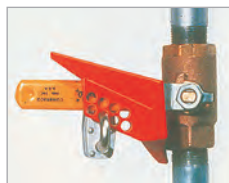

Code	Valve Handle Dia.	Price
GVL1	25 to 63.5mm	£13.99
GVL2	63.5 to 127mm	£16.50
GVL3	127 to 165mm	£22.75
GVL4	165 to 254mm	£39.99
GVL5	254 to 330mm	£57.25

Ball Valve Lockouts

Prevent unwanted adjustment of quarter – turn ball valves.

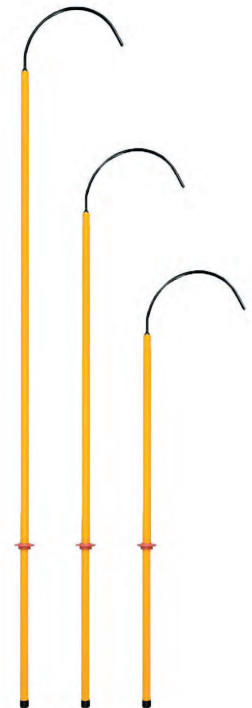

- Simply squeeze the lockout and insert the padlock.

Code	Description	Valve Handle Dia.	Price
BVL1	Super-Tough Nylon	6.35 to 25mm	£17.50
BVL3	Heavy-Duty Steel	31.75 to 76mm	£27.99

Rescue Hooks

Large hook rescue sticks for rescuing an injured technician in the event of an incident in an HV location or substation. All insulating sticks come with a steel tube hook and are in three types for 45kV, 90kV and 225kV operating voltages.

Code	Description	Price
LOT0054	2.05m Hook – 90kV rated	£249.99
LOT0055	2.45m Hook – 225kV	£349.00
RCE20	1.65m Hook – 45kV rated	£199.00

1. Slip lockout onto valve handle.

2. Slide to right until contact made with valve body or pipe.

3. Squeeze device & valve handle to ensure snug fit.

Nylon Body Safety Padlocks with Steel Shackles

These nylon body safety padlocks with steel shackles are a cost effective solution to meet your lockout requirements.

- 2 keys to each lock.
- Bodies and keys stamped with key number as standard.
- Available keyed to differ.
- Standard 'Do Not Remove' label and write-on labels included.
- Vertical Shackle clearance 38mm, shackle diameter 6.4mm. 38mm wide x 44mm bodies.
- Available in 9 colours, Red, Yellow, Purple, White, Green, Teal, Blue, Black and Orange - Please specify.
- **Sold as singles.**

Code	Price
RCE29*	£9.50

Mini Starter Lockout Kit

Lockout various different pieces of equipment at once with this handy kit.

- Kit contains:
 - 2 x 25mm Lockout Hasps (1 red and 1 yellow)
 - 2 x 38mm Lockout Hasps (1 red and 1 yellow)
 - 6 x 38mm Padlocks (1 red, 1 yellow, 1 green, 1 blue, 1 black, 1 orange)
 - 1 x Nylon Hasp
- Padlocks are keyed differently and each come with 1 key.
- Nylon casing on the padlocks is chemical and corrosion resistant with enhanced impact resistance.

Code	Price
300JRA100	£115.99

Padlock Stations

Help store your padlocks and keep them all in one place.

- 2 different options available –
- 6 padlock station and 36 padlock station.
- 6 padlock station is 57 x 76 x 32mm (HxWxD)
- 36 padlock station is 76 x 406 x 32mm (HxWxD)

Code	Description	Price
LOT0010	6 Padlock Station	£34.62
LOT0011	10 Padlock Station	£53.62

Lockout Safety Padlocks

Designed and dedicated to locking off equipment. Ideal for use with all lockout equipment.

- The patented insulated key chamber protects workers from shocks when the key is inserted - ideal for all electrical applications.
- The key will not be released until the padlock shackle is closed.
- The 6-pin locking mechanism cylinder is housed in reinforced nylon which is ribbed for easy handling and grip.
- The nylon casing is chemical and corrosion resistant with enhanced impact resistance.
- Each padlock is keyed differently and is supplied with one key.
- Supplied with multi-lingual labels.
- Supplied in packs of 6.

Code	Price
LOL15	£75.50

Please specify colour (black, blue, green, orange, red, or yellow)

LBOX2

300ITA100

LBOX1

Lock Boxes

Heavy steel construction.

- LBOX1 is ideal for complex work team lockout procedures. Once the machine is locked out, all keys are placed into the box. A lock is placed on the outside of the box until the job is complete.
- LBOX2 can hold up to 13 individual locks. Each member can unlock their padlock from the box and place the key into the box.
- No-one can then undo their padlock until keys are released (Padlocks sold separately - see price box).

Code	Description	Size (H x W x D)	Price
LBOX1	'Yellow Group' Lock Box	152 x 245 x 102mm	£39.99
LBOX2	'Red 13 Lock' Lock Box	152 x 245 x 102mm	£39.99
300ITA100	'Blue 13 Lock' Lock Box	152 x 245 x 102mm	£39.99
L015 RED	Safety Padlocks Red (Pack of 6)		£75.50

Portable Padlock & Lockout Stations

Take your lockout equipment wherever your work takes you.

- Compact durable stations are supplied with a handle for easy portability and screw slots for wall mounting.
- Lockable semi-transparent covers protect the contents from harsh environments.
- Constructed from rust-proof polypropylene.

Portable Padlock Station

- Supplied with detachable handle and 2 velcro strips.
- Holds 10 padlocks, 6 hasps and 10 tags.

Portable Lockout Station

- Supplied with detachable handle, clear plastic holder and 4 detachable hooks for hanging various pieces of lockout equipment.
- Contents not included.**

Code	Size (HxWxD)	Price
LOTO20	178 x 337 x 64mm	£49.99
LOTO21	432 x 432 x 171mm	£70.99

Lockout Stations

Built for the toughest conditions.

- These lockout stations are manufactured from double moulded polystyrene.
- Plastic or metal hanging hooks for padlocks, lock-out hasps and tags.

Code	Description	Size (H x W)	Contents	Price
ES020/C	Lockout Station & Contents	280 x 355mm	4 x Individually keyed padlocks (15mm shackle) 3 x Pks (10) Do not Operate tags with ties	£140.00

Lockout Wall Cabinets

Organise & control your locks & tags with ease.

- Constructed of a light gauge steel and painted in a highly visible yellow.
- Remind employees to lockout and ensure they have the equipment to do it.
- Available in 2 sizes.
- Contents not included.**

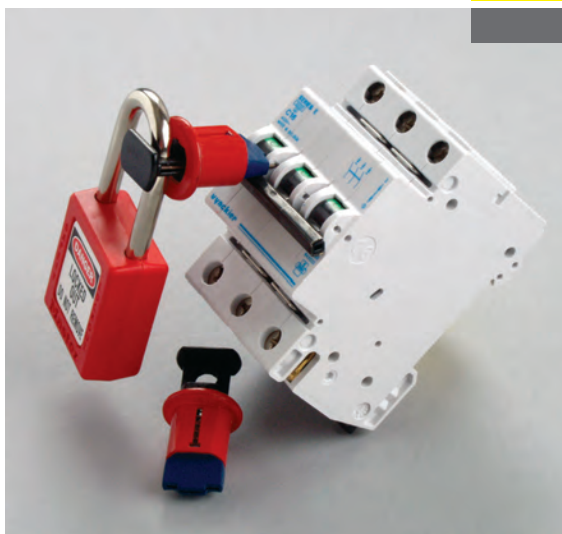

Code	Description	Price
LCWA	Small Cabinet (Empty) Size (H x W x D) 178 x 203 x 76mm	£49.99
LCWB	Medium Cabinet (Empty) Size (H x W x D) 280 x 203 x 76mm	£89.99

Miniature Circuit Breaker Lockout System

Safe and effective method of locking out circuit breakers. Will fit most existing single and multi-pole circuit breakers.

- Extremely unique – easy-to-install using a push button, requires no tools.
- TBLO (Tie Bar Lockout) has a convenient thumb wheel for quick application.
- Made of strong, glass-filled nylon.
- Supplied singularly or in packs of 6.
- Lock using padlocks with a shackle diameter up to 6mm.
- Multi-pole breaker fits on most breaker switches with multiple bars. No locks or hasps are needed.
- Each Multi-pole lockout is supplied with two cable ties.

5 different types of Breaker Lockout available:

Code	Breaker Lockout Type	Price
LOCKAP1	POS (Pin Out Standard)	£10.50
LOCKAP6	POS (Pin Out Standard) - Pack of 6	£56.25

Manual handling relates to the moving of items either by lifting, lowering, carrying, pushing or pulling.

The weight of the item is an important factor, but many other factors can create a risk of injury, for example the number of times you have to pick up or carry an item, the distance you are carrying it, where you are picking it up from or putting it down (picking it up from the floor, putting it on a shelf above shoulder level) and any twisting, bending, stretching or other awkward posture you may adopt while doing a task.

- To assess risks associated with Manual Handling you should carry out a risk assessment. The risk assessment should include:
- Observation of the tasks involved in and around the workplace
 - Taking into consideration how much lifting and carrying is involved.

It's sometimes wise to ask employees what they think the hazards are, as they might notice something that you don't. Once you have identified any hazards you need to decide how likely it is for any harm to occur.

Please note that some products within this section may incur additional carriage costs due to size and weight.

Heavy-Duty Pallet Trucks

Exceptional value for money – built to withstand the rigours of everyday industrial use.

- Heavy-duty and reinforced forks for great strength and durability.
- Built in overload valve and totally sealed hydraulic pump.
- Oil-free bushings at key points offer less operating force and a longer lifespan of the truck.
- **Fork Height Range:** 85 - 200mm.
- **Fork Length x Width:** 1150 x 160mm.
- **Width over forks:** 540mm

Code	Capacity	Weight	Price

WINTER PRODUCTS

The Health & Safety Executive (HSE) advise that arrangements should be made to help minimise risks from snow and ice, products within this section can help to do that.

Preparation is important during the winter months; it's handy to have a grit bin around just in case. In order to help prepare and be aware it's a good idea to keep an eye on the weather forecast. It's important that you keep walkways clear and safe for pedestrians to walk on.

Most common method of de-icing floors is by using grit/salt as it's quick, cheap and easy to do. Using grit/salt can stop ice from forming and cause existing snow or ice to melt.

White De-Icing Salt

Highest purity salt for de-icing snow and ice.

- Ideal for quick de-icing of car parks, pathways and steps.
- Works quickly to leave areas free from ice with virtually no residue.
- Also guards against re-freezing.
- Suitable for use with Salt Spreaders.
- Supplied in 25kg bags.
- **Please note, additional carriage charge may apply to SALT1.**

Code	Description	Price
ICE3	25kg Bag	£16.95
SALT1	Pallet of 42 x 25kg Bags	£249.95

220 Litre Ultimate Grit Bin Kit with Salt

Innovative and robust designed grit bin with everything you need in readiness for winter

- This unique grit bin has a full moisture control system which prevents the ingress of moisture - keeps salt dry and ready for use.

18kg Spreader

Our most popular spreader due to its ease of use and durability.

- 18kg hopper capacity.
- Incorporates a 3-hole drop shut-off system to ensure an even and balanced spread pattern.
- 3m typical spread width.
- 220mm (dia.) pneumatic tyres allow the spreader to be used on rough terrain.
- Steel "T" bar handle with epoxy powder-coated chassis.

Code	Description	Price
WSS2	Spreader	£155.00
WSS2RC	Rain Cover	£35.50

18kg hopper with 3-hole drop system

Heavy-Duty solid linkage control – stronger than traditional cable mechanisms

Use with Seeds, De-icing Salt & Ice Melts!

Spreader with rain cover

Heavy duty wheels

36kg Professional Spreader

With unique agitation at point of delivery for complete hopper emptying.

- 36kg hopper capacity and 4m typical spread width – up to 50% wider than other spreaders.
- Unique interchangeable trays can be quickly and easily changed according to the de-icing material being used.
- Supplied with High Output Tray; Standard 3-Hole Tray available separately.
- Features height-adjustable handle for user comfort; heavy-duty gearbox, plus solid linkage 'T' handle gauge and lever control.
- Heavy-duty powder coated steel chassis withstands harsh environments.
- 330mm (Dia.) pneumatic tyres on rust-proof poly rims provide traction on snow and ice.
- Also available, 3-sided deflector kit to direct salt to where it's needed and rain cover to keep contents dry.

Code	Description	Price
